This is a listing of Australian (mainly Commonwealth and New South Wales) official reports held as monographs or as part of the Parliamentary Papers sets in the University of Sydney Library. The list was created by the then Government Documents Librarian Ray Penn and later updated by Linden Fairbain.

This is a partial list intended as a quick finding aid. Remember that printed listings by subject and chairperson appear in Borchardt's indexes, and these should be consulted if the report you seek is not found in this document. For information on indexes to Australian Government Reports see the Finding Australian Government Reports Subject Guide Borchardt's index ends with 1980. This list concentrates on reports dated 1981+ but also includes selected pre 1981 reports.

This listing is intended mainly to help you to find quickly the title of the report when only the chairperson's name is known.

There are indexes to the reports tabled in the Commonwealth Parliament in the Finding Australian Government Reports Subject Guide. This guide will assist you in finding the parliamentary paper numbers if you are looking for current issues among the government documents at G.AUS P on level 9 of Fisher Library.

If you need more information you should first check the Library catalogue for up-to-date locations. If there is no parliamentary paper number listed in the index below, the online catalogue may give the required number, but if not, the best source is Australian government publications [microform] at R015.9409045 1 and the online indexes mentioned above.

Should you locate extra information, please let me know by sending an e-mail message to: For additional information please contact your Faculty Liaison Librarian
