You will need to install EndNote Plug-in to use EndNoteX8 in pages.

Install Plug-In
1. Go to insert > EndNote Citation
2. Message will pop up on the screen to install the Plug-in
3. Follow the prompt to install the Plug-In as you normally install other software

Pages Bibliography

In Pages, the Bibliography automatically starts to generate on a new page at the end of your document.

Inserting a reference

1. Open Pages
2. Place your cursor where you wish to add your first citation.
3. Click on Insert and then select EndNote Citation.

OR
1. Click on insert icon on the pane and then select EndNote citation.
4. The Find Endnote Citations search box will appear. Enter the Authors’ name or a keyword for the reference you wish to find and hit Enter on your keyboard.

5. Highlight the citation you wish to use and select Insert.
6. The bibliography will start generating on the last page of your document.

Change output styles in Pages

1. Click on Edit and then select EndNote Citations > and select the style from the list.
To use a style not on the menu

1. Quit Pages and go to EndNote.
2. In EndNote, go to the Edit menu and choose Output Styles > Open Style Manager
   Select the style(s) by ticking the "Favourites" box in front of the desired Style and close the box.

To use the style in Pages, close/quit both Pages and EndNote and then re-open both programs.
Remove or Edit Citation in Pages

Remove or Delete Citation

Select the reference you wish to delete and click on delete button on your keyboard.

Edit Citations (Remove Author/Year)

1. Double click the citation you wish to edit

2. Tick the Exclude Author or Year box.

Adding Pagination and Text (Prefix & Suffix)

1. Double click the citation you wish to edit
2. Type the page range on the Range box

3. For Prefix and Suffix: enter the text in the boxes.
4. Close the window
